I find the slow,
manual thing and
build it away.

Ten years in broadcast and media production, working where creative teams meet the systems they depend on. When a process is slow, manual, or keeps breaking, I build the fix (a script, an automation, a website, a tool), get it running reliably, and move on to the next one. I use AI as a working tool, and I'm open about how.

RECENT BUILDS

AudioPipe

BROADCAST AUTOMATION

Scheduled FTP ingest, audio processing, metadata cleanup, and promo tagging for daily station file handling.

wctsradio.org

STATION WEBSITE

Designed and built the station's new website from the ground up, in-house.

Lumen-Map 2.0

DATA · IN PROGRESS

Missionary map spanning multiple mission boards, kept current with automated scraping and data enrichment.

CheckSpree

OPEN SOURCE

Free check-printing and ledger tool with payee profiles and running balances.

EXPERIENCE

WCTS Radio

Operations Manager

PLYMOUTH, MN

Jun 2024 – Present

- Run daily station operations: automation systems, broadcast equipment, and archives.
- Built **AudioPipe** and **FTP/file-sync automation** for program scheduling, removing a recurring manual step and reducing broadcast disruptions.
- Rebuilt wctsradio.org** and brought the **WCTS Praise** stream to Amazon Alexa.
- Capture and produce the annual Sharathon fundraiser, including its social media graphics.
- Developing a documentary for the station's 60th anniversary, building AI-assisted interview and editing workflows in DaVinci Resolve.

Luminary Craft Digital

Founder · independent web studio

MINNEAPOLIS, MN

Ongoing

- Build sites for churches, schools, and ministries: research, copy, design, and AI-assisted development.
- Launched sites for the **Minnesota Association of Christian Schools** and a Christian school; two more in build.

BJU Press · Studio Services

Studio Technical Support Manager

GREENVILLE, SC

2023 – Jun 2024

- Managed technical operations across multiple production studios: equipment, upgrades, and workflow.
- Wrote the specs and design recommendations for a **full studio renovation** and oversaw the rollout.

Lead Motion Graphics Artist · promoted from Specialist

2022 – 2023

- Promoted to Lead within months; earned the company's **Rookie of the Year** award.
- Created 3D animation in Blender and promotional video for the 2023 textbook line.
- Maintained NAS infrastructure and set up the team's digital archiving protocols.

International School of Wuxi

IT Support Engineer · contract

WUXI, CHINA

2021 – 2022

- Supported faculty and staff with computers, devices, and classroom tech; coordinated upgrades with leadership.

Harvest Family Radio

Radio Production Assistant

GUAM

2016 – 2021

- Recorded, edited, and produced daily broadcast audio: sermons, weather, and daily commentary.
- Ran the station's **smart-playlist automation** for program loading and scheduling.
- Built the station's **FCC and SoundExchange compliance reporting** from scratch: an Excel log-search and reporting system for accurate program-by-program filings.

SKILLS

Automation & systems

Broadcast automation & scheduling · FTP/file-sync scripting · AI-assisted development (Claude Code) · Excel reporting systems · NAS & digital asset management · studio equipment

Web & data

HTML/CSS · Base44 · WordPress · Wix · web scraping & data enrichment

Media production

Premiere Pro · After Effects · DaVinci Resolve · Photoshop · Illustrator · Audition · Blender · broadcast & podcast audio · photography

EDUCATION

B.A. in Humanities

Maranatha Baptist University

2012 – 2016

Cross-cultural communications; minor in digital media communications.

CERTIFICATIONS

CompTIA A+ · 2021

AACS Professional Certificate

Educator, Computer & IT

ALSO

Social media, logo, and brand work for local churches and a regional concert production.
