I find the slow, manual thing and *build it away.*

Ten years in broadcast and media production, working where creative teams meet the systems they depend on. When a process is slow, manual, or keeps breaking, I build the fix (a script, an automation, a website, a tool), get it running reliably, and move on to the next one. I use AI as a working tool, and I'm open about how.

RECENT BUILDS

Airchain
BROADCAST AUTOMATION

Desktop app for FTP/SFTP show ingest, loudness processing, BWF/CART metadata, scheduled delivery, and airing reports.

wctsradio.org
STATION WEBSITE

Designed and built the station's new website from the ground up, in-house.

Lumen-Map 2.0
DATA · IN PROGRESS

Missionary map spanning multiple mission boards, kept current with automated scraping and data enrichment.

CheckSpree
OPEN SOURCE

Free check-printing and ledger tool with payee profiles and running balances.

EXPERIENCE

WCTS Radio
PLYMOUTH, MN

Operations Manager — Jun 2024 – Present

- Run daily station operations: automation systems, broadcast equipment, and archives.
- Built **Airchain**, a desktop app that automates show ingest, audio processing, and scheduled delivery, removing recurring manual steps and reducing broadcast disruptions.
- **Rebuilt wctsradio.org** and brought the **WCTS Praise** stream to Amazon Alexa.
- Designed and built the station's **podcast studio**, applying studio-spec work from BJU Press.
- Capture and produce the annual Sharathon; developing a 60th-anniversary documentary with AI-assisted editing workflows.

Luminary Craft Digital
MINNEAPOLIS, MN

Founder · independent web studio — Ongoing

- Build sites for churches, schools, and ministries: research, copy, design, and AI-assisted development.
- Launched **8 sites** for churches, a Christian school, missionaries, and a local business; more in build.

BJU Press · Studio Services
GREENVILLE, SC

Studio Technical Support Manager — 2023 – Jun 2024

- Managed technical operations across multiple production studios: equipment, upgrades, and workflow.
- Helped write the specs and design recommendations for a **full studio renovation**.
- Supplied equipment to the video production crew and helped maintain NAS infrastructure.

Lead Motion Graphics Artist · promoted from Specialist — 2022 – 2023

- Promoted to Lead within months; earned the company's **Rookie of the Year** award.
- Created 3D animation in Blender and promotional video for the 2023 textbook line.

International School of Wuxi
WUXI, CHINA

IT Support Engineer · contract — 2021 – 2022

- Supported faculty and staff with computers, devices, and classroom tech; coordinated upgrades with leadership.

Harvest Family Radio
GUAM

Radio Production Assistant — 2016 – 2021

- Recorded, edited, and produced daily broadcast audio: sermons, weather, and daily commentary.
- Ran the station's **smart-playlist automation** for program loading and scheduling.
- Built the station's **FCC and SoundExchange compliance reporting** from scratch: an Excel log-search and reporting system for accurate program-by-program filings.

SKILLS

Automation & systems

Broadcast automation & scheduling · FTP/file-sync scripting · AI-assisted development (Claude Code) · Excel reporting systems · NAS & digital asset management · studio equipment

Web & data

HTML/CSS · Base44 · WordPress · Wix · web scraping & data enrichment

Media production

Premiere Pro · After Effects · DaVinci Resolve · Photoshop · Illustrator · Audition · Blender · broadcast & podcast audio · photography

EDUCATION

B.A. in Humanities

Maranatha Baptist University

2012 – 2016

Cross-cultural communications; minor in digital media communications.

CERTIFICATIONS

CompTIA A+ · 2021

AACS Professional Certificate

Educator, Computer & IT

ALSO

Social media, logo, and brand work for local churches and a regional concert production.
